

WEATHER RELATED OPERATION OF BUSES

The final judgment as to when conditions due to fog, rain, snow or other natural elements are unsafe to operate will be made by the superintendent or the superintendent's designee. The superintendent will be assisted by the Director of Auxiliary Services and the actual "on location" reports of drivers.

Because weather conditions may vary around the district and may change quickly, the best judgment will be used that is possible with the information available.

Parents and drivers will be notified by commercial radio when school is cancelled, temporarily delayed, or dismissed early. When school is cancelled because of weather anywhere in the district, all schools will be closed.
